Cameron, Milam County, Texas, Herald, Thursday, February 24, 1977

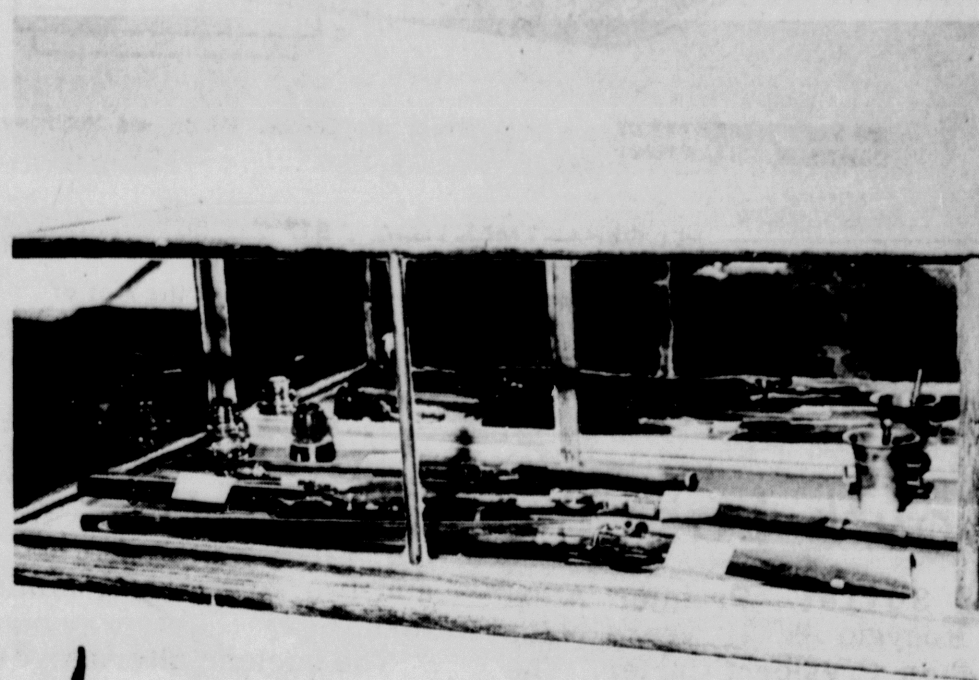

12 Pages Today

AN OLD VICTROLA, hand-cranked, sits atop a display case in the Buckholts museum which contains relics of yesteryear. Also on top is a pair of shoes from 1912.

A WIDE VARIETY of artifacts can be found in the Buckholts museum, including shoemakers tools, Indian artifacts and even a mounted wild hog. Antique postcards brighten up the display.

A CASE of old guns on display in the Buckholts museum. Exhibits are on loan from throughout the Buckholts area. The museum will re-open in April for the general public.

## Buckholts Museum Has Varied Exhibits

The first item to catch the eye in the Buckholts Museum is an old player piano, recalling days past when friends gathered for a song-fest accompanied by tinkly melodies.

The piano is just one of a host of fascinating glimpses of the past shown in displays of everything from pearls from an old wedding gown to a 100-year-old cash register.

An antique corn-sheller reposes in a display of old farm tools and there is a hand-cranked siren used on a horse-drawn fire cart from the old days. Indian artifacts are displayed, along with an ancient victrola and dainty ladies shoes from 1912.

One of the most interesting items for women is an antique iron ruffler. It held a heated iron rod and when a crank was turned, a corrugated roller made ruffles for bonnets, collars or other garment trims.

Numerous old photographs depict the history of early-day Buckholts to be read by the visitor.

Right now, the museum, which is housed in the old Buckholts State Bank building which is also city hall, is closed, but it will be open with some new displays on April 8 from 2-5 p.m. The museum committee will also have a bake sale going on that day to raise funds for the museum.

The museum had its beginning when Buckholts was becoming a Bicentennial Community at the end of 1975. Mrs. Frances Fuchs is the chairman of the Heritage '76 committee and through combined efforts of her committee, exhibits were collected and the museum was officially opened for the public on July 4, 1976.

Many concerned citizens from

Buckholts and surrounding communities serve on the committee and it was through the efforts of various individuals that the museum was opened and is maintained.

Items for display are loaned to the museum on a rotating basis by individuals who wish to share some portion of the past with the general public. In this manner items and artifacts on display at the museum do not stay the same throughout the year, thus offering a variety of interests for public viewing.

Mrs. Fuchs said the city pays utilities for the building and so far the museum has raised funds through bake sales. She said the museum committee hopes for the donation of an old home that could be used to house the exhibits for the museum.

## Mrs. Ruzicka Resigns From B'holts Board

The Buckholts school board met in emergency session Monday night to accept the resignation of Mrs. Glenda Ruzicka from the school board.

She and her husband are moving to Cameron and she will no longer be able to serve on the board, Buckholts Supt. Jimmy Hawk said.

The board accepted the resignation with a vote of appreciation to Mrs. Ruzicka for her four years of service.

Hawk said the board will not fill her position before the April 2 school trustee election. Anyone who wishes to file for that unexpired term should contact Hawk at the superintendent's office.

The other two trustees whose terms expire have filed for re-election. They include Ray Harris and Mrs. Gladys Allison. Deadline for filing is 4 p.m. March 2, Hawk said.

## Film System To Be Purchased For Library

Library board members heard a proposition to purchase a microfilm-microfiche system for the library presented by Mrs. Katherine Looney, librarian, when they met Monday afternoon.

Since there was not a quorum present, no action was taken; however, Boots Stroup, president, said he will canvass other members for approval to purchase the system.

Mrs. Looney said the purchase was recommended by the book committee and will cost a little over \$500.

A financial report given by Mrs. Looney showed an operating fund balance of \$3,192.43; a book fund of \$1,022.92; and certificates of deposit totaling \$10,359.20.

## Drunk Charges Filed Against La Grange Couple

A LaGrange couple was jailed Sunday night on charges of driving while intoxicated and public drunkenness after their vehicle struck two parked pickups near the Milam-Burleson county line.

The car was driven by Chris Berry and struck pickups owned by the Arrow Oilfield Construction Co. DPSTrooper Don Wardlaw of Rockdale said heavy damage was inflicted to one of the pickups and lighter damage to the other.

Mrs. Berry was charged with being drunk.

## Sugar Loaf Raid Nets 9

A massive "bust" by Milam County sheriff's officers and Milam Constable J. T. Morgan resulted in the arrests of nine persons early Sunday morning on Sugar Loaf Mountain.

Sheriff Leroy Broadus said nine persons were jailed and 15 turned loose with seven charged with possession of marijuana. Two persons were charged with trespassing and fined \$107.50.

Out on \$500 bond after being charged in Justice of the Peace Jess Brock's court were David Stewart, 21; Terry Stevenson, 22; Randal Riddle, 17; Gary Sims, 20; Russell Stauffer, 22; Stephen Drew, 22; and Melvin Bates, 19. All were from the Bryan-College Station area.

Charged with trespassing were Robert Gardner, 20, and Stewart Roman, 18, both from Bryan.

The seven men pleaded guilty in county court to possession of marijuana and paid \$150 fines plus court costs, Broadus said. They received 30-day jail sentences which were probated.

Broadus said he received a call Sunday morning reporting that some 15 cars were parked near the mountain. When the officers drove up, Broadus said the young men tried to dispose of the evidence when those

on top the mountain saw the officers coming.

The two charges of trespassing were filed after Broadus told Gardner and Roman to leave, then later caught them back at the scene hunting for evidence thrown away in the raid.

Broadus said all the persons were trespassing but a fence around the mountain has been torn down and the only way he can file for trespassing is to have persons come back after they have been told to leave.

### BREAKIN INVESTIGATED

The county sheriff's department is investigating a breakin in a mobile home at the Village Courts in Rockdale Saturday night, Sheriff Leroy Broadus said.

Items stolen included men and women's clothing, rings, a .22 pistol, a stereo and a CB radio.

## GED Tests To Be Given On Two Saturdays

GED (General Educational Development) tests will be given on two successive Saturdays, Feb. 26 and March 5, in the Ben Milam School building in Cameron, County School Supt. Max McClaren said this week.

The tests will start at 8:30 p.m. and will be administered by Jack Ruzicka.

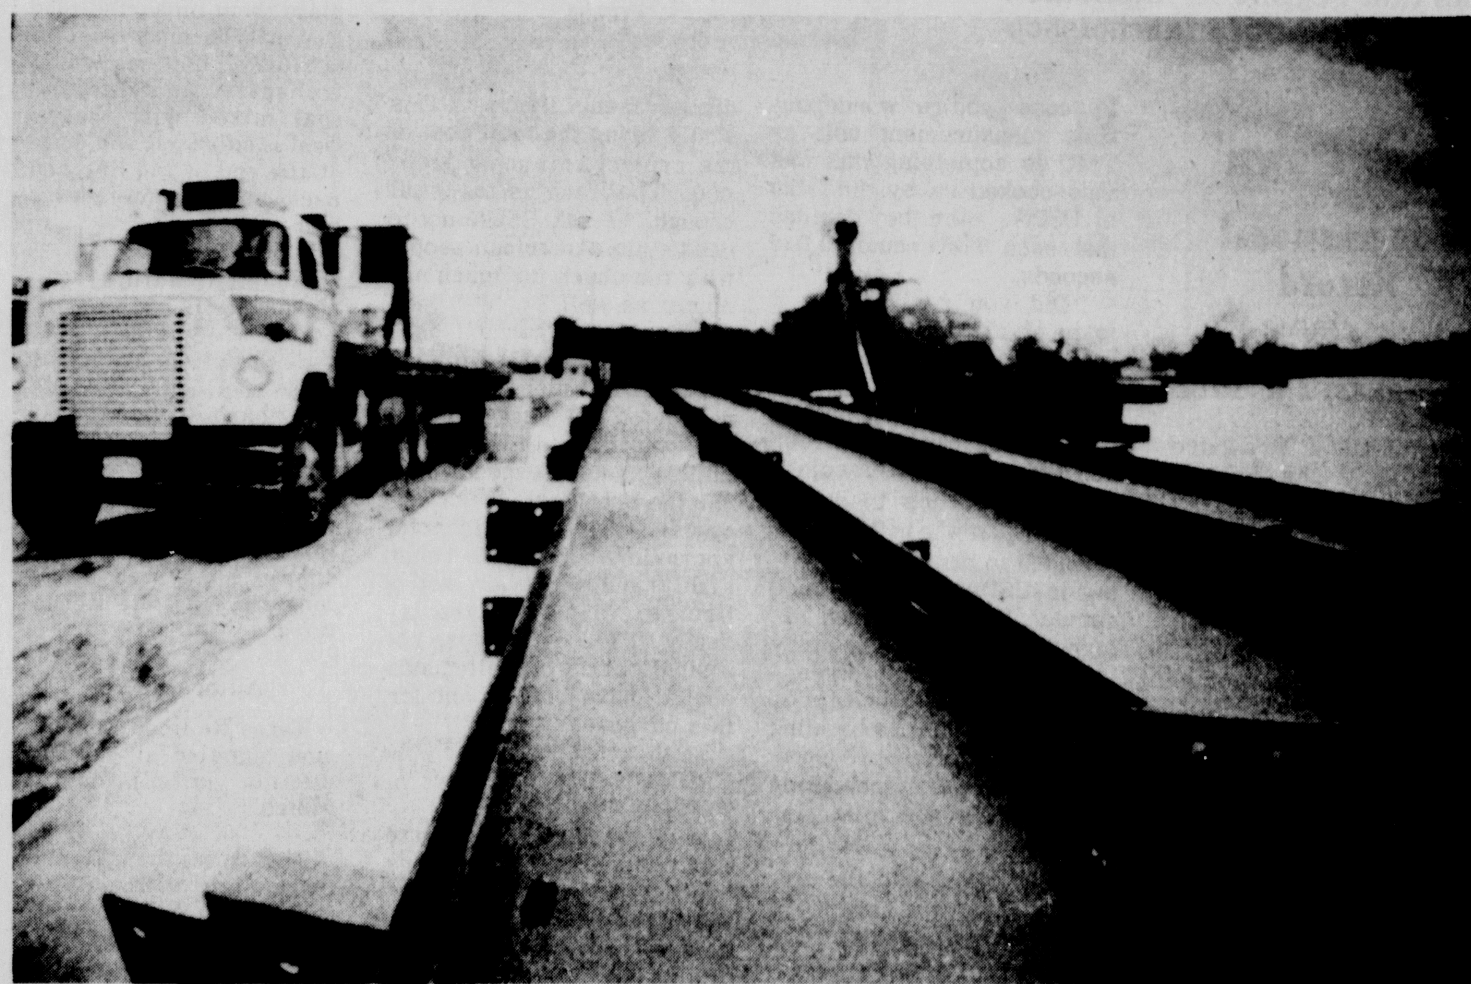

McClaren said there is a charge of \$10 for the whole test or \$2 a section.

Three parts of the test will be given on the first Saturday and the remaining two parts the following Saturday.

Students who pass the GED test receive the equivalent of a high school diploma.

## Warning Issued On Installing CB Antennas

### WIND OF WINTER...

There was no snow in it. There was no room because of parts of West Texas stirring about.

Tennis players at a match here between Cameron and Belton high schools had to wait once in a while to see which way the ball would fall.

A medical complex in El Paso wasn't there Wednesday morning, or the framework of the project going up. Eight construction workers rode it down in winds up to 100 mph.

Steel framework going up at the new Milam Youth Exposition Bldg. shook a bit, but stood well in the 30 plus mph winds here.

It was a wind of winter, driving men hoarse, and on the open range horses, if not airplanes, it overturned and baseball games it stopped, wild.

It was reminiscent of the Dust Bowl days of the 1930s when dust clouds were common, when not only West Texas, but Kansas, Nebraska, Oklahoma, and the Dakotas filled the air and where parts of which are dry enough to recreate that disastrous depression windstorm.

Yes, Tuesday was the first real blow for the Lion, a week ahead of his March deadline.

117-117-117

It was a long time ago that I had my tea leaves "read" by a Gypsy fortuneteller. I was a kid in a restaurant in Washington D.C., in fact, and it seemed like a lot of fun.

The fortuneteller said mostly pleasant things and foretold trips, times for good luck or bad, giving some characteristics she believed were mine.

The comments were just vague enough to fit what possibilities for someone my age.

The other day I gave a psychic (they used to be called fortunetellers) my initials, date of birth, four favorite colors, and a question.

The answer came back about 65 to 70 percent accurate.

I don't know how they do it. They supply the answers to the questions in your head. Extra-sensitive perception has some heavy moments.

It can't all be luck. Some people have it. It is built into cats and dogs and birds and is called instinct.

Those people who have psychic powers are always subjective. They know the difference between "good" and "bad" vibrations.

It must have been the quill pen I used.

## 14 Still Compete For Alcoa's Scholarships

Fourteen area high school students are still in competition for the two \$4,000 Alcoa Foundation college scholarships to be awarded next month at Aluminum Company of America's Rockdale Works, according to Dr. Walter Vincent, superintendent of the Rockdale Independent School District and chairman of the local scholarship selection board.

Finalists are Lawrence Kubacak, John Pruett, and Melissa Wickes of Rockdale; Janice Bayer, Mary Ann Elliott and Kirk Schwartz of Caldwell; Richard Raymond and Molly Story of Yoe High in Cameron; Douglas Alexander, Dana Farr, David Rozacky, and Virginia Urbanek of Taylor; Dale Caffey of Thorndale; and Alice Faye Mikulencak of Thrall.

The selection board, composed of eight area high school superintendents, reviewed college entrance test scores and high school grades of the 45 Alcoa employees' sons and daughters who took the SAT test last November.

Two alternates will be announced along with the scholarship winners, Dr. Vincent said. Colleges chosen by the winners receive \$1,200 unrestricted grants.

# Farmers, Ranchers Have Potential Energy Sources

COLLEGE STATION  
Texas farmers and ranchers currently have vast sources of energy on their own lands. The secret is how to put them into use. That's where the Center for Energy and Mineral Resources at Texas A&M University comes into play. Through research under way at the Texas A&M Center, these sources may one day provide farmers and ranchers with much of their energy needs and take the pressure off declining stocks of oil and gas.

"Most of these potential sources of energy are renewable and can contribute substantially to our future need," Dr. Richard E. Wainerdi, center director, told some 250 bankers attending the recent 25th Texas Farm and Ranch Credit School for Commercial Bankers here.

"One of the greatest potential sources of energy is the sun, which has long been used by farmers and ranchers," noted Wainerdi. "Current research at Texas A&M is exploring the idea of a grain dryer powered by the sun. Other projects are aimed at developing low cost solar water heaters and space heaters which can be used to heat farm homes and buildings."

## Rural Land Values Are Rising

Rural land values continue to increase over the United States although the rise hasn't been as fast in Texas as in the Midwest. Citing U. S. Department of Agriculture figures, Dr. Wayne Hayenga points out that farm real estate values turned 17 percent for the year ending Nov. 1. However, the increase in Texas was only about 7 percent.

The sharp increase raises the U. S. average price per acre for rural land from \$380 to \$445.

Hayenga, an economist for the Texas Agricultural Extension Service, notes that agricultural land values have been spurred mainly by strong farm income as a result of increased demand for agricultural products, especially from foreign countries. The increased demand has maintained steady prices despite large crops.

The economist points out that the largest gains in rural land values were mainly in the major grain-producing states such as Nebraska and Iowa. Farm-land values also shot up in Washington, Minnesota, Illinois, Indiana, Ohio, West Virginia, and Maryland. The depressed cattle market the past few years kept land values from increasing quite as rapidly in states with large tracts of grazing land.

Hayenga believes that the upward trend in land values will continue this year as growers seek to enlarge farms in response to another large harvest and good prospects for net farm income to remain high. Also, with the increasing general economic activity, the demand for rural land from nonfarm sources is also expected to be strong.

## Home Garden Topic For Gause Meeting

By John E. Snell

A home gardening meeting will be held in Gause on Wednesday, March 2 at 7 p.m. The meeting will be held at the Gause Community Center.

Sam Cotner, Extension service horticulturist from Texas A&M University, will conduct the meeting.

This program is sponsored by the Gause Community Improvement Association and all Gause residents and individuals from other communities are invited to attend this home gardening training program.

pointed to wind as a potential energy source. He said that research is under way to develop more efficient wind energy devices, ones which might one day be used to generate greater amounts of electricity for farms and ranches, drive machinery, and compress air into storage tanks to drive other remote machines.

"Certain crops and crop residues can also be used to produce energy to fuel farm machines," emphasized Wainerdi. "Methyl alcohol, or methanol, can be produced today from almost anything containing carbon, which includes all crops and crop residues. Methanol as a fuel is actually superior to gasoline in some respects. It has a higher octane level, is lead- and sulfur-free, is low in emissions and is not as great a fire hazard. We have developed an engine that can burn methanol or gasoline which is now being tested in a small truck."

Crops grown in Texas produce vast amounts of residue, noted Wainerdi. As an example, he cited that up to four billion pounds of cotton trash is collected at gins each year. This trash has a total energy value of more than 30 trillion BTUs, the equivalent of about 240 million gallons of gasoline. Crops such as sorghum, corn, and sugar cane also produce tremendous amounts of residue which might one day be used to produce fuel.

Wainerdi also cited wood and wood residues plus animal manure as offering base products for producing fuels. Animal manure produces methane, a flammable gas that is a major constituent to natural gas. Research is under way to make the production of energy from these various sources more efficient.

FFA NEWS

Sixteen members of the Cameron Yoe High School FFA Chapter will be competing in the 1977 Houston Livestock Show and Rodeo, along with 18 members of the Buckholts FFA.

The Yoe boys will enter a total of 13 beef heifers, three market lambs, and six market barrows. Their vocational agriculture teacher is Phil Van Cleave.

The Buckholts chapter will enter a total of five beef heifers, three market steers, two dairy heifers, five market lambs, six market barrows, and two pens of broilers. Their teacher is O. T. Johnson.

The livestock show opens Feb. 23 and runs through March 6, with rodeo performances every night in the Astrodome beginning Feb. 25.

The second week of the show will be devoted to competition among junior exhibitors of all major beef and dairy breeds, swine, sheep and goats, rabbits, and poultry. It is the largest junior livestock show in the country.

# Farm and City

County Agent's Notes

## Decision Time For Small Grains

By Bill McCutchen  
Milam Co. Ext. Ag.

It is decision time for small grain producers. It is time to decide whether to go for a grain crop, graze it out, or destroy it and try for another crop.

Wheat prices don't look too encouraging but that is a decision each one will have to make himself. The option of grazing out the crop could be a viable option this year with low grain prices and optimism on calf prices for May and June. Most producers have too much invested to destroy a crop since other crop options are not looking that solid.

## Beef Cattle Short Course Set For April

Discussions on breeding and marketing of cattle will be among the highlights of the 27th annual Beef Cattle Short Course at Texas A&M University, April 4-5.

Among featured speakers will be Dr. Peter Chenoweth of Colorado State University and Dr. K. C. Williamson of Virginia Polytechnic Institute and State University, points out Dr. Dennis Herd, beef cattle specialist with the Texas Agricultural Extension Service.

Chenoweth, an authority on reproductive performance of beef cattle, will discuss breeding soundness in bulls as well as libido and mating behavior in bulls. Williamson, with years of experience in selling cattle for top dollar in Virginia, will discuss new potentials in cattle marketing.

Other topics to be discussed during the short course include liver fluke and stomach worm control, prospects for cattle tick control, status of the brucellosis control program, cattle price outlook, Rumensin as a new feed additive, nutritional value of large hay packages, and improving rebreeding performance in first-calf heifers. Talks dealing with range nutrition of cattle and pasture production should also be of interest to producers, notes Herd.

The short course is a part of the annual Texas Animal Agriculture Conference, which features individual sessions on beef cattle, dairy cattle, swine and horses as well as special programs on range, pasture, and forage production and wildlife management.

Also featured will be an equipment and machinery exhibit and a trade show, adds Herd.

# ROUNDUP

**Check John Deere's Roundup of Haymaking Bargains for special discounts plus year-end investment credit**

Act fast and you can save two big fistfuls of cash. Look at this list of cash discounts we're offering right now on hay and forage equipment. On top of those savings, you could save some more on investment credit. Time is limited. See us before January sneaks up on you and cash-in on John Deere's Round-Up of Bargains.

MACHINES	DISCOUNT UNTIL 28 FEB 1977	DISCOUNT 1 MAR. 1977-30 APR. 1977

**LANKART LX571 COTTONSEED**

**LANKART SEED FARM, LTD. WACO, TEXAS**  
*Originators and Growers*  
**LX571**

**IT'S DEPENDABLE**

Dependable yields of consistently high quality fiber even in drouth years. That's what made LX 571 a long time favorite with farmers here about. And it's nice to know that you don't have to give up something else for drouth resistance. Farmers appreciate the good gin turn-out of fairly long staple fiber which makes in the premium range under normal conditions.

At maturity you'll like the looks of LX 571's storm resistant bolls and at harvest you'll appreciate how well it strips one-time-over. LX 571 along with other Lankart varieties accounts for over 60% of the cotton planted in the Altus Classing Office territory and have for a number of years... strong testimony from people who know how to grow cotton in this area. If you think this might be a dry year

**CHECK THESE LX 571 CHARACTERISTICS:**

- Good dryland cotton
- Good root system for drouth resistance
- Top yields
- Good gin turn-out
- Medium early maturity
- Storm resistant bolls
- Excellent stripper variety
- Well-adapted to one-time-over harvesting
- Staple length in the 1" and longer range
- Micronaire in the premium range (under normal growing conditions)

**CHECK THESE RESULTS:**

Information from cotton variety comparisons made in 1976 in various locations in Texas and Oklahoma:

- Childress, Texas  
On dryland without fertilization LX 571 (Lankart) made 687 pounds of lint per acre. The cotton which was machine harvested had a micronaire of 4.7, staple length of 30 and a gin turnout of 26.8 percent.
- Haskell, Texas  
In a dryland cotton variety test, LX 571 produced 665 pounds of lint to top the test and beat the second variety in the test by 12 pounds per acre. The fiber graded 50, had a staple length of 32, micronaire of 5.4 and a gin turnout of 29.5 percent.
- Wall, Texas  
LX 571 also topped this test of eight varieties on non-irrigated land without fertilizer. It produced 544 pounds of lint with a staple length of 34. Micronaire was 4.7, solidly in the premium range.
- Delhi, Oklahoma  
Under extreme drought conditions and without irrigation, LX 571 made a lint yield of 250 pounds per acre. The cotton graded 40, had a staple length of 30/32, a micronaire of 5.2. The gin turnout was 29.9 percent.
- Coopterton, Oklahoma  
In this test on the Kenneth Boyd farm, Lankart LX 571 produced 349 pounds per acre of very good cotton. It graded 50 with a staple length of 33/32, micronaire of 5.0 and had a gin turnout of 28.6 percent.

If you raise dryland cotton in this area where drouth is a threat, go with LX 571 this year. You can get Lankart LX 571 from your gin.

## Air Force Has Opening For Officers

Air Force recruiters are looking for qualified applicants to fill 1,629 officer opening during fiscal year 1978, according to Lt. Col. John C. Currie, commander of Recruiting Detachment 404, headquartered in Arlington.

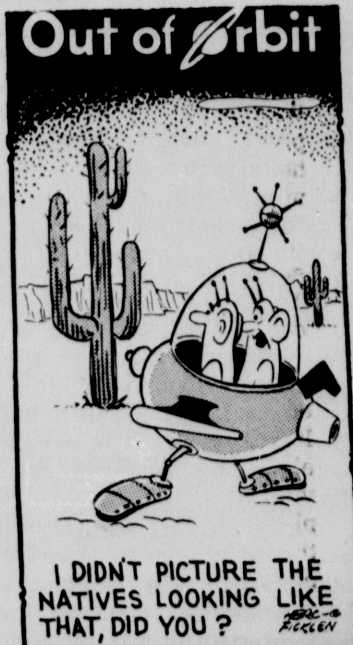

"Our recruiting efforts will be primarily focused on applicants who have technical degrees, such as computer science, engineering, mathematics, meteorology, and physics," said Col. Currie. He pointed out, however, that "persons possessing non-technical degrees are welcome to apply for openings in career fields such as supply, security, and law enforcement and administration, but they should expect exceptionally keen competition for selection."

Some 190 openings will be for navigator trainees, and 315 for engineers.

College graduates or seniors within six months of graduation are eligible to apply. Applicants must be 21 to 29 years old inclusive, and be American citizens.

Selected prospective officers will attend the 12-week Officer Training School at Lackland Air Force Base in San Antonio, and be commissioned a second lieutenant following graduation.

Local Air Force recruiters have complete information.

Prices Effective Thurs., Fri., & Sat., February 24, 25, 26, 1977 in Cameron

— QUANTITY RIGHTS RESERVED —

**SAFEWAY**  
Copyright, 1960. Safeway Stores, Inc.

ENGAGED--Mr. and Mrs. Milush Valka of Cameron announce the engagement of their daughter, Doris Ann, to Gary Lynn Cockrum, son of Mr. and Mrs. Carence Cockrum of Moffat. The couple plans a July 2 wedding at St. Monica Catholic Church in Cameron.

Rum cake is an annual tradition in many American homes. However, rum cake probably originated in France according to files in the archives of Bacardi Imports, Inc., the country's largest importer of rum. During the 17th century, King Stanislas of Poland, also France's Duke of Lorraine, dipped chunks of cake in rum and set them on fire. He named the delicious pieces "Baba au Rhum" after Ali Baba, the celebrated thief in the bestselling novel of the day, "The Thousand and One Nights."

Today many hostesses still follow the custom by serving rum cake and rum punch as a popular way to end a festive meal. Here are exciting new recipes for the ever popular rum cake and rum punch.

**FESTIVE RUM CAKE**

**Cake:**

- 1 cup chopped pecans or walnuts
- 1 1/2 1/2-oz. pkg. yellow cake mix
- 1 3/4 3/4-oz. pkg. instant vanilla pudding mix
- 4 eggs
- 1/2 cup cold water
- 1/2 cup oil
- 1/2 cup Bacardi dark rum (80 proof)

**Glaze:**

- 1/4 lb. butter
- 1/4 cup water
- 1 cup granulated sugar
- 1/2 cup Bacardi dark rum

Preheat oven to 325°F. Grease and flour 10-inch tube or 12-cup bundt pan. Sprinkle nuts over bottom of pan. Mix all cake ingredients together; pour batter over nuts. Bake 1 hour. Cool. Invert on serving plate. Prick top. Drizzle and smooth glaze evenly over top and sides. Allow cake to absorb glaze. Repeat till all glaze is used. For glaze, melt butter in saucepan. Stir in water and sugar. Boil 5 minutes, stirring constantly. Remove from heat. Stir in rum.

If desired, decorate with whole maraschino cherries and border of sugar frosting or whipped cream. Serve with seedless green grapes dusted with powdered sugar.

## Yoe High To Sponsor Show March 1

Members of the Yoe High Band are sponsoring a show on March 1 at 7:30 p.m. featuring Dr. Kit, a hypnotist of international fame. The show will be held in the gym.

Pre-sale tickets are available from band members at \$1 for all ages. Gate tickets will cost \$1 for grades 1-5 with a charge of \$1.50 for those in the 6th grade or older.

Dr. Kit has been a showman on the road for 16 years and has broken records in Europe, Hawaii, the USA, Alaska, and Canada.

During the show Dr. Kit will demonstrate mass hypnosis and will hypnotize 20 to 30 local volunteers from the audience at one time.

The hypnotist's who has been described as the most amazing and funniest entertainment sensation to be seen in many years. It is a clean, wholesome show for the entire family.

Jerry Bartley, band director, said proceeds from the show will help finance a band trip to Louisiana on May 6 to compete in a music contest.

In 1780, the population of the U.S. was 2,781,000.

## Whites has it! AN OPPORTUNITY FOR TEXANS!

Want to be your own boss? Own your own business! Each dot on the map indicates a city where WHITES is seeking a franchise to open and operate another WHITES AUTO STORE. Over 147 Texas towns to choose from, plus other prime locations in neighboring states. Could you be the one we're looking for?

WHITES is a complete home and automotive center with 650 modern stores in 17 states, including Texas, and plans rapid expansion in the South.

We'll put you on the road to success and lifetime security. Whites does not charge franchise fees or overrides on sales. Investment of \$30,000 and up is required, depending on the size store you select.

Have money to invest? Call our nearest sales office. You will receive straight facts without pressure and without obligation.

## College News

### Mary Hardin-Baylor

Twenty-seven students in the senior class of Mary Hardin-Baylor College have been named to Who's Who Among Students in American Universities and Colleges. From the Cameron area named to the list is Jo Ann Vogelsang.

### TWU

Sixty-four students at the Texas Woman's University were initiated into Omega Rho Alpha, national English honor society, at the February meeting of the group. Purpose of Omega Rho Alpha is to promote fellowship among freshmen and sophomore students and to encourage them to improve their majors. Among those accepted into membership was Karen Richardson, daughter of Mr. and Mrs. James Richardson of Cameron. Karen is a freshman Physical Therapy major.

## Miss Shepard Honored With Shower

Miss Belinda Shepard of Lott, bride-elect of Steve Slovacek of Rosebud, was honored with a tea in the parlor of the First United Methodist Church of Rosebud Saturday afternoon from 2 until 4 p.m.

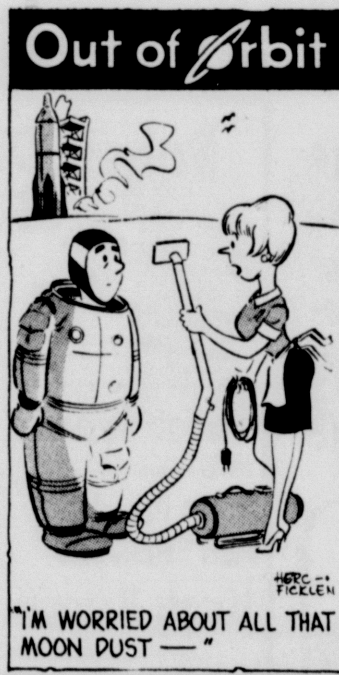

Receiving the guests were the honoree, Mrs. Victor Slovacek, mother of the prospective groom, and Mrs. Ellie Butts of Bishop, aunt of the prospective groom. The gifts were displayed in the hallway leading to the church parlour.

Mrs. Donnie Robison of Rosebud registered the guests. The refreshment table was laid with a white embroidered linen cloth and centered with a large arrangement of spring flowers and white tapers. Appointments were crystal and silver. Mrs. Richard Rainspot of Lott and Mrs. Louis Koslosky of Rosebud served cake squares, punch, and nuts. Hostesses were Mrs. Joe Bailey, Mrs. Charles Belson, Mrs. E. A. Biers, Mrs. John H. Collier, Mrs. Doug Crook, Mrs. James Goad, Mrs. Lee Ray McAtee, Mrs. Roy Parcus, Mrs. Sam Skinner, and Mrs. Ed Slovacek. The couple plans a March 19 wedding in the First United Methodist Church of Rosebud.

## Seniors Can Accident Proof Homes

Seniors can "accident proof" their homes in several ways--to help lessen one of the leading causes of death among persons over 65 years of age, says Mrs. Vivian Blair, family life education specialist-aging. She is with the Texas Agricultural Extension Service, the Texas A&M University System. Her suggestions include the following:

- Arrange furniture so that a smooth and uncluttered pathway leads from room to room and to outside doors.
- Do away with heavy furniture pieces that are difficult and dangerous to move. Replace them with lightweight--but stable--furniture.
- Eliminate or arrange furniture so that sharp edges or corners are not in, or near, pathways.
- Chair arms should fit you comfortably when both feet are firmly on the floor and should provide stable leverage when you sit down and when you get up.
- Fabrics used for interior furnishing should be easy to clean, stain resistant, and flame retardant.
- All areas of the home, including hallways and stairways should have ample light for safe moving about.
- Eliminate scatter rugs in walk ways--to be sure they are fastened securely to the floor.
- Doors should open against a wall--not into a traffic lane. Check your home and make changes to insure that your senior years are safer years.

"I'M WORRIED ABOUT ALL THAT MOON DUST"

## SCHOOL LUNCH MENU

### MILANO MONDAY, FEB. 28

Sausage  
Rice

Use Of Transplants Key  
To Successful Gardening

By Chris Holcombe

Use of transplants is one of the keys to successful gardening, and an individual can grow his own vigorous transplants indoors. However, care should be used not to start them too early.

This is a common mistake made by inexperienced gardeners. Transplants from seed planted too early become spindly, weak, tall, and yellow and do not do well when set out in the garden.

For the best survival and quick recovery after planting in the garden, transplants should be young, sturdy, and in good nutritional condition.

Usually four to six weeks is sufficient time to grow most transplants. Vine crops take two to three weeks to develop two to three true leaves while lettuce takes three to four weeks. Tomatoes need five to seven weeks to reach transplanting stage. These time requirements are at the recommended day temperature of about 75 degrees F. and a night temperature of 50 degrees F.

To determine planting time for transplants, figure back four to six weeks from the average last spring frost date in Milam County, which is usually between March 10 and March 20. Seed of most spring garden varieties should be planted at this time. Some transplants such as cabbage, broccoli, lettuce, green onions, and spinach can be set in the garden four to six weeks before the last frost date.

When starting plants indoors, use a soilless or synthetic soil mix available at garden centers or nurseries.

Seed can be started in almost any type of container such as flower pots, milk cartons, or cake pans. Be sure the container has holes for adequate drainage.

Once you've got the needed materials and planting time is at hand, fill the containers with the synthetic mix, firm it in well and then water thoroughly. Space the seed evenly, cover lightly, and water again.

To improve germination, try slipping the container into a plastic bag and placing it in an area at room temperature but out of direct sunlight. Remove the bag when the seed first sprout and place the container in sunlight.

Once the container has been removed from the plastic bag, water must be added to maintain good moisture. Frequent watering will be necessary but use care to avoid saturation. After plants have two to three true leaves, daily watering may be needed.

When the plants are of adequate size and outside conditions are suitable for plant growth, transplant them into the garden area.

## Tomato Diseases Numerous

The most widely grown vegetable in Texas gardens is the tomato. However, this popular vegetable is also subject to a number of diseases.

The first disease problem that most homeowners face

with tomatoes is damping off. Planting in warm, well-drained soil and spraying with the fungicide Captan when the disease occurs.

Fusarium wilt is another common disease problem in tomatoes. The only control is the use of wilt resistant varieties. These include Spring Giant, Spring Set, Terrific, Better Boy, Big Set, Homestead 24, Homestead Elite, Small Fry, and Monte Grande. Small Fry is a cherry type tomato.

Root knot nematodes also attack tomatoes. Resistant varieties are the most effective means of reducing losses to these microscopic pests. Such varieties include Nematax, Terrific, Big Set, Better Boy, and Small Fry.

Among common foliage diseases attacking tomatoes are early blight, late blight, Septoria leaf spot, gray leaf spot, and Anthracnose. These can best be controlled by fo-

liar sprays of an acceptable fungicide such as Maneb, Captan, or Zineb. Begin applications when the disease first appears and continue at 7 to 10-day intervals for three to four applications.

Fruit decay may also set in as tomatoes near maturity. The most effective control of this condition is to use a cage or mulch of some type of keep fruit from touching the soil. Foliage fungicides will also aid in controlling various fruit rots.

As is readily evident, a great deal of time and effort are required to produce beautiful, delicious tomatoes, with particular attention needed to control diseases.

## Burlington

Mrs. Gerald Foshea

Friends here were sorry to hear that Mrs. Anna Janke passed away Sunday, Feb. 20 in a Rosebud nursing home.

Mr. and Mrs. David Kruse and family of San Antonio spent the weekend recently with his parents, Mr. and Mrs. Phil Krause and Mrs. Judy Bostick and girls.

Mrs. Herman Dornier Jr., Mrs. Herman Dornier Sr., Mrs. M. D. Swanzy of Rosebud, and Dianne Dornier of Cyclone visited Mr. and Mrs. Wagon Dornier, Angela, and Chad of Moody last Tuesday evening.

Mr. and Mrs. J. W. Forrest and family of Lake Jackson spent Sunday with Mr. and Mrs. Phil Krause and Mrs. Judy Bostick and girls and Hugh Martin.

Mr. and Mrs. Leonard Pelzel, Mr. and Mrs. Alan Pelzel of Westphalia, Mr. and Mrs. Stanley Kirk and Kristi of Cameron, Mr. and Mrs. Houston Brown, Russ, and Alan of Troy returned home Sunday after spending the weekend on a fishing trip to Sulphur Springs.

Mr. and Mrs. Billy Benesh visited Mr. and Mrs. Thomas Polk, Darrell, and Donald of Rosebud on Sunday night.

Kelli Jo Kilpatrick of Temple spent several days this week with her grandparents, Mr. and Mrs. W. G. Marek.

Mr. and Mrs. George Pool of Waco visited Mrs. J. T. Prescott and Jake and Mr. and Mrs. Gerald Foshea a while last Friday night.

Mr. and Mrs. Carrol War-chak and Kenneth of Georgetown; Mr. and Mrs. Charles War-chak of Academy; Mr. and Mrs. David Mitchell of Rosebud; Mrs. Jerry Huffer and girls of Temple; Veronica and Lawrence Huber of Tours; Mr. and Mrs. Steve War-chak and Wyatt; and Joe Geiser had Sunday dinner with Mr. and Mrs. W. J. War-chak, Rose, and Jeanette.

Mr. and Mrs. Jerome Schiller, David, and Marsha, and Mr. and Mrs. Kenneth Schiller all of Houston visited Mr. and Mrs. Henry Litzman Sr. during the weekend.

Mr. and Mrs. Gilbert Green, Tammy, and Michael of Temple and Mr. and Mrs. Ronnie Dornier and Dianne of Cyclone visited Mr. and Mrs. Herman Dornier Jr. and Yvonne on Sunday night.

Mr. and Mrs. Johnnie Heilpert and Freddie visited in the home of August Helpert for a few days while Freddie attended a Farm Bureau Agents meeting in Waco.

Mr. and Mrs. Johnnie Heilpert and Freddie visited in the home of August Helpert for a few days while Freddie attended a Farm Bureau Agents meeting in Waco.

Mr. and Mrs. Johnnie Heilpert and Freddie visited in the home of August Helpert for a few days while Freddie attended a Farm Bureau Agents meeting in Waco.

## Rededication Set For Local Church

The First Christian Church in Cameron will hold a rededication service on Sunday, Feb. 27 from 10 to 11:30 a.m. Dr. Harrell A. Rea, minister of the Christian Church in the southwest area, will preach the rededication sermon.

A recent renovation program has been carried on at the church which is pastored by Rev. L. C. Reece. The pastor's study and church office have been newly painted, with a new carpet and curtains and new furnishings.

The roof has been replaced and the ceiling in the sanctuary, which had been damaged by water, has been replaced also. New stained glass windows have been installed and woodwork painted.

The entire building was sandblasted, including the front steps. The basement has been refinished, with new paneling, storage room, and lowering of the ceiling with acoustical tile and new lighting. The Sunday School rooms and nursery were redone.

A substantial amount of the labor for renovation has been volunteer labor by church members.

The time for Sunday School and the morning worship has been changed with Sunday School starting at 9 a.m. and the worship service starting at 10.

The public is invited to attend the rededication service and view the improvements to the church.

## SOMETIMES... SO DARK

There is no denying that there's much sadness in the world. And if we let pessimism get the better of us—well, it gets mighty dark sometimes!

But some of the darkness is self-inflicted. The eyes through which we're trying to see are obsessed with our own problems. The light of hope is hidden by the frustrations of life.

Jesus Christ should never be thought of as a sad man—even though He was cruelly executed. And the apostles are seldom thought of as tragic figures even though they all became martyrs. And Christianity has been a source of strength and comfort to millions in time of suffering or sadness. It has always been hailed as a joyous religion!

Come with us Sunday and face the Light.

## OBITUARY

### Smith

Monroe Eugene Smith, 68, of Houston and formerly of Cameron, died in a Houston hospital Monday.

Funeral service was held at 10:30 a.m. Wednesday in Earthman Funeral Home in Houston with the Rev. D. Orval Strong officiating.

Graveside service was at 3 p.m. Wednesday in Oak Hill Cemetery in Cameron with the Rev. Stanley Vodicka officiating.

Mr. Smith was born in Rogers and had lived in Houston 35 years.

Surviving are his wife of Houston; and three uncles, Earl Pevehouse of San Antonio, Monrow Pevehouse of Dripping Springs, and Henry Pevehouse of Amarillo.

Marek-Burns-Laywell Funeral Home was in charge of local arrangements.

### Janek

Mrs. Rozie Janek, 97, of Cameron, died in a Cameron hospital Saturday afternoon after a short illness.

Funeral was at 10 a.m. Monday in St. Monica's Catholic Church with the Rt. Rev. Msgr. John Geiser officiating.

Burial was in St. Monica Cemetery and rosary was recited at 7 p.m. Sunday in Marek-Burns-Laywell Funeral Home.

Mrs. Janek was born in Czechoslovakia and lived in Cameron for the past 70 years. She was a member of the KJZT Lodge and a member of St.

Monica Ladies Society.

Surviving are three sons, Julius Janek of Freeport and Milton Janek and Joe Janek, both of Cameron; two daughters, Mrs. Frances Petru of Odessa; 21 grandchildren, 36 great grandchildren, and 7 great great grandchildren.

### Janke

Mrs. Anna Janke, 83, of Burlington, died in a Rosebud nursing home Sunday morning.

Funeral was at 3 p.m. Monday in the Hoelscher Funeral Home in Rosebud with the Rev. W. A. Muller officiating. Burial was in Terry's Chapel Cemetery.

She was born in Austin County and lived most of her life in the Rosebud and Burlington areas. She was a member of the Salem Lutheran Church.

Surviving are three sons, Edward Janke and Walter Janke, both of Burlington, and Melvin Janke of Rosebud.

### Sitz

Funeral for Ben H. Sitz, 73, a carpenter, was at 2 p.m. Sunday in the Salem Lutheran Church.

Mr. Sitz died Saturday in a Waco hospital after a brief illness.

The Rev. W. A. Mueller conducted the funeral and burial was in Woodland Cemetery.

Born in Falls County, Mr. Sitz was a member of the Masonic Lodge AF&AM 745 and the Salem Lutheran Church.

Surviving are his wife; daughters, Mrs. Fred Collins of New Braunfels and Mrs. Charles Blanton of Garland; brothers, Emil and Fred Sitz, both of Rosebud; sisters, Mrs. Anna Jahns and Mrs. Frieda Hoff, both of Rosebud, and Mrs. Olga Elbel of Spring Branch; and five grandchildren.

Green Funeral Home was in charge of arrangements.

## FACTS & FIGURES

For every 100 persons accepted the armed forces must provide 850 fillings, extract 101 whole teeth and build 59 bridges and dentures!

The first permanent teeth we get in our mouths are the "6-year molars." These are perhaps the most important teeth in our mouth for they serve as keystones for the final arch of the teeth in the jaws!

# Yoemen Begin Workouts

Every year about this time after the excitement of high school football has left and the cold winter season has been spent in the high school gym cheering the round-batters along, there seems to be a slight lull in high school

athletics. Then comes the spring and the warmer weather and the avid sports fan knows that the baseball season has arrived.

The 1977 Cameron Yoemen baseball pring workouts have already begun and

the Yoemen seem eager to compete and win.

Twenty-two players are out to fill the 15 spots on the Yoemen baseball club and while only 5 of the 22 have had high school baseball experience, all have the

When asked about the potential of the '77 Yoemen, Coach Roy Knight seemed optimistic, stating "We have as much potential as any team in the district as far as material. We have five returning players from last season, and they will be the basis of our leadership for the program this season."

Knight sighted the hitting as a major problem for the Yoe ball club.

Knight said, "Our practices will pivot around the hitting attack. The summer program helped a great deal with the hitting, but we must improve to compete in the district."

Coach Knight compiled the Yoemen into three categories: five returning players with a great deal of experience; seven who have played baseball but with little experience; and the remaining ten have no high school experience other than the summer program.

Although the majority of the team has little or no experience, Knight said that the team was "working hard and getting in shape for the season. Everyone is real eager to compete in the action and represent the school well this year."

The pre-season action for the most part will be a time for the young Yoemen to gain the experience they will need to compete in the district action.

Knight stated, "During the pre-season we will be playing a lot of kids to find the right combination of players to form the best program. We will stress experience over winning during the pre-season to ready ourselves for district."

The Yoemen will open their regular season play March 1 at 2 p.m. as they travel to meet A&M Consolidated. The Yoemen will travel to Belton Friday night, February 25, to scrimmage the Tigers.

Two powerhouses were cited in the district this season by Knight, those being Rosebud and Elgin.

Rosebud has a good all-round program while the Wildcats of Elgin will be the strong hitters in the district.

Knight also cited the Rockdale Tigers as a team to watch out for, stating, "The Tigers have a good nucleus of all-round athletes."

District play is slated to begin March 29 and will continue through May 16.

In Coach Knight's closing remarks he stressed the importance of having the support of the town and getting fans out to the games.

Knight said, "Our district games are scheduled for 4 p.m., although many of the town's people are still on the job. I hope that we can draw a good crowd because when the stands are full and the team knows the town is behind them 100%, they just naturally try a little harder. While our practices help us physically, the crowd helps us mentally."

While it is still early in the season, look for a good team this year--a winning team.

BRENT ZAROSKY prepares to take a swing during pre-season workouts.

Behind the plate is Steven Hollas.

A VIEW from the batter's box as the batters take practice. Batting

may be the '77 Yoemen's only drawback in district action.

Whales are the best of all animal high jumpers, often leaping more than 20 feet in the air.

## 1977 Yoe Baseball Schedule

Date	Opponent	Time
Mar. 1	A&M Consolidated	4:00
Mar. 3-5	Rockdale Tourney	12:00
*Mar. 11	Whitewright	2:00
Mar. 17-19	Elgin Tourney	
Mar. 22	Taylor	4:00
*Mar. 29	Hearne	4:00
Apr. 1	Pflugerville	7:00
*Apr. 5-8	Elgin	4:00
Apr. 7	Caldwell	4:00
*Apr. 12	Rosebud-Lott	4:00
Apr. 19	Rockdale	7:00
Apr. 22	Hearne	7:30
*Apr. 26	Pflugerville	4:00

## Property Tax Burden, Says FB

AUSTIN The president of the state's largest farm organization told an assemblage of state government officials, legislators, and county farm leaders that the property tax burden is one of agriculture's primary problems.

Carrol Chaloupka of Dalhart, leader of the 195,571 member Texas Farm Bureau, recommended that agricultural land be assessed for taxation at its productive value. He also outlined TFB's legislative recommendations on school financing, state inheritance taxes, farm-to-market roads, taxation, and regulation of underwater

market roads, taxation and regulation of underground water, and funding agricultural research and education.

The dinner highlighted a two-day session Tuesday and Wednesday attended by more than 300 county Farm Bureau leaders, including presidents and chairmen of membership and state affairs committees.

Other speakers at the conference included Gov. Dolph Briscoe, Lt. Gov. William Hobby, House Speaker Bill Clayton, Atty. Gen. John Hill, Comptroller Bob Bullock, Sen. Max Sherman of Amarillo, Reps. Bill Sullivan of Gainesville and Tom Massey of San Angelo, TFB Executive Director Warren Newberry of Waco, and TFB State Affairs Director Pat Smith of Austin.

"We are not suggesting that agricultural land be taxed at something other than fair market value," Chaloupka said. "We are only suggesting that the method of finding fair market value be limited to 'income capitalization' based on the agricultural productivity of the land." He said this would eliminate "most recent sale" evaluations which he said may be distorted because of speculative or commercial use of nearby land.

King Mongkut of Siam (the real king of "The King and I") had 9,000 wives and concubines!

## Kubiak Raps 'Backdoor' Action

AUSTIN Rep. Dan Kubiak of Rockdale Friday announced he was preparing a constitutional amendment to prohibit "backdoor" expenditures "like the one that's going to give a 30 percent pay raise to Congressmen, federal judges and members of the Presidential cabinet." Congressmen will get a \$14,000 pay raise from \$4,600 to \$57,500 a year.

Kubiak said any legislation, on a federal or state level, that would allow such "automatic" expenditures of public funds without a direct vote by the elected representatives was another blatant example of why the public distrusts government officials at all levels.

"Two very important things must be remembered: First, I don't argue one whit with the merits of the proposed salary increase, but I object strongly to the manner in which this pay raise is being implemented," Kubiak said.

The proposed pay hike will take effect Sunday in Congress does not by resolution disapprove it. Texas has a "pay as you go" provision already in its Constitution and Kubiak said his amendment would serve to strengthen it.

"Most importantly, what

it will do is put the members of the Texas Legislature on record as saying that we decry this deceitful subterfuge with the public's money," he added.

Kubiak said acts like this mislead the public and result in a crisis of confidence and credibility.

"If government officials and legislators want a pay hike and if they've done a good job and if they'll be open with their constituents, that's fine. Let them stand up and vote one way or the other on it. But let's not go through the back door and appropriate any kind of expenditure for any purpose until we stand up and debate it in front of every taxpayer and voter," Kubiak said. "My amendment will demand just that candor and openness."

"Further, if I could be so presumptuous as to advise our Congressmen, it seems as obvious as a drunk Indian dancing Swan Lake that it's little charades like this which undermine the public confidence in government," Kubiak said.

## SBA Loan Officer To Be In Bryan

Wednesday, March 2, from 8:30 a.m. to 4 p.m., T. H. Tyll, loan officer, will be available to discuss SBA's financial assistance program.

Persons interested in reviewing their business plans with the SBA representative should call the Chamber of Commerce office at 713-822-3721 to schedule an appointment with Tyll.

Location of the Bryan-College Station Chamber of Commerce office is 401 S. Washington Ave., Bryan.

## Astroworld Sets Spring Opening

HOUSTON Houston visitors will experience an array of family entertainment adventures as Astroworld opens for spring weekend operations beginning March 12.

A major expansion in Children's World, "The Magical World of Marvel McFey," to open late spring, offers the younger generation a "do your own thing" playground that includes a variety of recreational activities plus six rides designed for "little people only."

A new 1000-seat domed Aqua Theater will house the all-new dolphin show, "Aqua Frolics '77" another addition to Astroworld's extensive line-up of show spectacles.

From foot-stomping musical variety to 20th century film entertainment, Astroworld will premiere six shows. Western Junction's Crystal Palace and the Coney Island Showcase Theater will feature Six Flags Inc. musical productions performed by talented high school and college students.

"Rock around the clock" best describes the new Disco in Country Fair with lively dance shows by day and disco dancing by night. Next door, guests can savor the spicy cuisine of Papa Russo's Italian Restaurant in a quaint, old world setting.

A new games midway will adorn Astroworld's Coney Island section, home of the Texas Cyclone, Houston's answer to the famed 50-year-old New York Coney Island roller coaster. This year the Texas Cyclone will have the added sparkle of thousands of tracer lights to follow riders along their 3,180 foot journey at accelerating speeds of 60 miles per hour.

## Trees, Shrubs Save Energy

The biggest energy saver for your home is growing in your back yard.

A landscape horticulturist with the Texas Agricultural Extension Service points out that trees, shrubs, and vines can cut the cost of cooling and heating your home.

"With the correct plants and the proper placing, trees and other greenery can become protectors from heat, wind, and cold," says Everrett Janne.

Plants can also collect the dust that might otherwise end up on your coffee table and can reduce the noise level. In addition to doing all these things, the plants provide their natural beauty.

"A row of evergreen tree or shrubs placed a short distance from a wall creates a dead air space," explains Janne. "This space provides for warmer air in the winter months since the air is not moving. Less heat escapes through the walls of your home and reduces heating costs."

These plants also serve as a storm wind barrier, and if placed correctly, can direct cooling winds of summer months around your home. If planted on the northwest side of your yard, trees and dense shrubs can protect a home from chilling winter winds and direct the cool summer breezes, emphasizes Janne.

"For the home summer-time, trees, vines, and other trailing plants can become a pleasing source of shade," says the horticulturist.

"Since the hottest part of the summer day comes with the afternoon sun, tall trees planted on the west side of your home can afford some relief from the heat."

Large trees should be placed 15 to 20 feet from your

home so that the cooling canopy can cover the roof. Deciduous trees provide the shade for summer and become bare in the winter to permit the sun to warm your home.

"Vines or trellis plants can provide your home with extra cooling insulation during the hot summer days. Deciduous vines allow the sun to warm the home in the winter," adds Janne.

## New FM Station To Sign On

Texas A&M University's newly authorized FM radio station is on schedule for a March 31 sign-on with a format that will feature classical, semi-classical, jazz, and easy-listening music.

Don Simons, station manager for the new non-commercial FM outlet for the Bryan-College Station area, said the transmitter was installed last week as the last major step in preparing for operations.

The station, KAMU-FM, will operate on a frequency of 90.3 megahertz.

Programming is planned for 18 hours daily, from 6 a.m. until midnight, originating from the same facilities which house Texas A&M's educational television station, KAMU-TV.

The FM station will be affiliated with National Public Radio, the equivalent of educational television's Public Broadcasting Service, Simons noted.

## Hermann Sons Start Campaign

SAN ANTONIO Hermann Sons lodges across the state, including the lodge at Cameron, will take part in a membership campaign March 1-31.

Traditionally, the fraternal order has held such drives in March and the drives have helped to build the Order of the Sons of Hermann up to some 73,500 members, it was reported.

A similar campaign held last March honored the presidents of all local lodges. There are 158 lodges in some 90 cities, towns, and crossroads communities, reported Grand President Henry Riemer from the Grand Lodge office in San Antonio.

The campaign this March, Riemer said, will honor the five Grand Lodge district supervisors, who assist the lodges in their respective districts. He urged all members to help make the campaign a success. Awards will be presented to those who do.

A fraternal benefit society required by law to provide life insurance for its members, the Sons of Hermann Order, which was established in Texas by German pioneers in the state some 116 years ago, is noted for its many fraternal activities, including socials, visits to the sick and bereaved, free dancing classes for junior members, as well as a partially free youth summer camp, and a home for its needy, aged members.

The camp and the home are both in the Hill Country at Comfort.

In his racing career, Man o' War won 20 out of 21 starts and broke five track records.
